

## ENERGIZING BODY SHOWER 6813

### Formula

<b>A</b>	• Glycerin	03.00 %
	• <b>SEPICIDE HB</b> ( <i>Phenoxyethanol/Methylparaben/Ethylparaben /Propylparaben /Butylparaben - SEPPIC</i> )	00.30 %
	• Fragrance	00.40 %
	• <b>MONTANOX 81</b> ( <i>Polysorbate 81 - SEPPIC</i> )	02.00 %
	• <b>PROTEOL OAT</b> ( <i>Sodium lauroyl OAT aminoacids -SEPPIC</i> )	05.00 %
	• Sodium lauryl ether sulfate 28%	45.00 %
	• <b>SEPITONIC M3</b> ( <i>Magnesium aspartate &amp; Zinc gluconate &amp; Copper gluconate - SEPPIC</i> )	01.00 %
	• <b>SEPICIDE CI</b> ( <i>Imidazolidinyl urea - SEPPIC</i> )	00.20 %
	• Water	QSP 100%
	• <b>MONTALINE C40</b> ( <i>Cocamidopropyl betainamide MEA chloride - SEPPIC</i> )	05.00 %
	• Sodium Chloride	00.75 %
	• Lactic acid	QS pH

### Procedure

Mix ingredients in A. Introduce PROTEOL OAT in the main vessel, add A then the NaLES. Mix well then introduce successively the other ingredients. Adjust final pH if necessary.

### Comments

**SEPITONIC M3** Multimineral Chrono-energizer. Its zinc, copper and magnesium content helps stimulate the cells by increasing the energy profile (Pyruvate, ATP) and overall metabolism (DNA, proteins). Ideal for tired skin, SEPITONIC M3 delivers the elements needed for cell dynamism and the maintenance of skin function. It works to stimulate cell regeneration and helps restore fresh, radiant skin.

**MONTALINE C40** Extrafluid quaternized coconut oil. The ideal cosurfactant for sodium laurylether sulfate, it has thickening properties and helps prevent dryness.

**MONTANOX 81** used as a solubilizer and an emollient. Increases synergistically the viscosity with MONTALINE C40

## Characteristics

Appearance	clear gel
pH	6.5
Viscosity	2000 cps BROOKFIELD LV2 6rpm
Stability	stable at RT/40/+4°C

## Assessment :

*Foaming index (57CO001) : 1/10 in hard water = 425ml 93%*

## Notes

Fragrance : OXYGENE 125150B (FIRMENICH)

**6813 - SEPPIC – A0104A**
