

## EXTRA GENTLE CLEANSING WIPES FOR DELICATE SKIN 6901A

### Formula

<b>A</b>	<ul style="list-style-type: none"><li>• <b>LIPACIDE C8G</b> (<i>Capryloyl glycine - SEPPIC</i>)</li><li>• Methyl paraben</li><li>• Ethyl paraben</li><li>• Propyl paraben</li><li>• Butyl paraben</li><li>• Isobutyl paraben</li><li>• Aqua/water</li><li>• Disodium EDTA</li><li>• TEA 25%</li></ul>	0.50 % 0.10 % 0.025 % 0.0125 % 0.025 % 0.0125 % 20.00 % 0.10 % 1.45 %
<b>B</b>	<ul style="list-style-type: none"><li>• <b>ORONAL LCG</b> (<i>Sodium coceth sulfate and PEG40 glyceryl cocoate - SEPPIC</i>)</li><li>• Fragrance</li></ul>	1.00 % 0.10 %
<b>C</b>	<ul style="list-style-type: none"><li>• <b>SEPICALM S</b> (<i>Sodium cocoyl aminoacids &amp; sarcosine &amp; potassium aspartate &amp; magnesium aspartate - SEPPIC</i>)</li><li>• Water</li><li>• Lactic acid</li></ul>	0.30 % Up to 100% QS pH=5.2

### Procedure

Solubilize ingredients in A with 20% water heated at 80°C. Separately solubilize the fragrance into ORONAL LCG. Add the cold solution A to B, then introduce SEPICALM S and complete with water. Check final pH: 5.2-5.4

We recommend an amount of 150% of solution based on the dry weight of the wipe for the substrate SPUNLACE viscose/polyester 65/35 55g/m<sup>2</sup>

### Comments

#### ORONAL LCG

Ultra mild surfactant that is extremely well tolerated by skin and eyes. It is well suited for formulation of products that require perfect tolerance (make-up removers, products for babies or sensitive skin, etc.). It allows formulation of colourless products.

#### LIPACIDE C8G

A glycine biovector and skin acidifying agent, it protects the skin and helps maintain its ecosystem. It also protects cosmetic products by increasing the microbiological stability of formulas with a low preservative content.

## SEPICALM S

Lipo-amino soothing agent enriched with minerals. Specially adapted to the needs of sensitive and stressed skin, it helps combat external stress factors of mechanical, chemical (AHA) or actinic origin.

## Characteristics

Appearance	clear lotion
pH	5.2
Viscosity	<50 mPa.s BROOKFIELD LV1 6rpm
Stability	Stable > 1Y at ambient temperature/ >3M 40°C/ >M1 4°C

## Assesment

Results (expert report MIDAC 02 414DB, 03 008DB, 03 269DB1)

Innoculated fungi	Blank wipes (water)	6901A (LCE02040ter)	Wipes impregnated with 6901A without paraben (LCE03001)	Wipes impregnated with 6901A without C8G (LCE03055)
<i>Aspergillus niger</i> CIP 1431 83	+	-	+	+
<i>Penicillium cyclopium</i> LCP 282	+	-	-	-
<i>Trichoderma viride</i> M 73	+	-	-	-
<i>Cladosporium sphaerospermum</i> M 75	+	-	-	-
<i>Alternaria alternata</i> M 117	+	-	+	-

+ : growth                      - : no growth

The formula 6901A is fully **protected against the growth of the 5 fungal strain** which can grow in the wipes.

## Notes

Fragrance: ZOE I861226 (MANE)

## 6901A° – SEPPIC – A0404

*Since this formula has not been the object of a toxicological study, the use and handling of the products proposed is purely indicative and SEPPIC accepts no responsibility for their use by another party.*
