E	Calcium Aluminium Borosilicate and Silica and Titanium Dioxide and Tin Oxide	0.05%
F	Conservateur / Preservative	0.15%

GRANNY APPLE SMOOTHIE

SHOWER GEL

Procedure LABO

Mix the phase A until homogenization. While mixing, add phase B and mix with defloculator (800 rpm, 5min). Add phase C in the mix, still mixing (500 rpm, 2min). When the mixture is homogenous, add ingredients of phase D, E and F.

Raw materials from SEPPIC

AMONYL[™] 265BA

Coco Betaine Provides a fine foam that is stable over time.

AOUAXYL™

Xylitylqlucoside and Anhydroxylitol and Xylitol

AQUAXYL[™] moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced (in vitro and in vivo tests prove this efficacy). It's mechanism of action has been validated by cosmetogenomics. Ecocert and Natrue approved.
