

POWER MATTE ! SOOTHING & MATTIFYING SPRAY

- White and smooth liquid
- Packaging : spray
- Power Matte refreshes and leaves a powdery veil. A must have for the jet-set's travels!
- SEPICALM™ VG soothes the skin and unifies the complexion.
- SEPIMAT™ SB leaves the skin soft and matte. Bye Bye shiny aspect !
- SIMULGEL™ I-NS 100 stabilizes the spray and gives freshness to the formula.

EU07297 - 1404

Formula

A	Aqua/Water SIMULGEL™ I-NS 100	Up to 100% 1.80%
B	SEPIMAT™ SB	3.50%
C	SEPICALM™ VG Parfum/Fragrance Phenoxyethanol and Benzoic Acid and Dehydroacetic Acid and Ethylhexylglycerin	3.00% 0.10% 1.00%
D	Sodium Hydroxide	Up to pH

Procedure

Pilote (TRIMIX) – 5kg

Weigh and mix phase A ingredients with rotor/stator 10 min at 3000 rpm. When the gel is smooth, add SEPIMAT™ SB and mix 5 min at 3000 rpm. If the gel is not smooth enough, mix again at 3000 rpm during 5 min (twice). Add phase C and mix twice during 5 min at 200 rpm. Adjust pH with phase D.

Characteristics

Appearance	White and smooth liquid
pH	5.5
Viscosity 1M at RT	195 mPa.s Brookfield S2S6
Viscosity 1M at 45° C	95 mPa.s Brookfield S2S6
Viscosity recovery at RT (after 1M at 45° C)	160 mPa.s Brookfield S2S6
Stability*	Stable M1 at RT, 4° C, 45° C, and thermic cycles (-5° C/+40° C)

Raw materials from SEPPIC

SIMULGEL™ I-NS 100

Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer and Isohexadecane and Polysorbate 60

Pre-neutralized liquid inverse latex polymer, ready-for-use. Thickening agent which stabilizes all types of oily phases. It can be used in a wide range of pH (3 to 12), and for the development of all types of consistencies: sprays, ultra-fluid to thick ones. It gives to the formulas a fresh and melting texture.

SEPIMAT™ SB

Methyl Methacrylate Crosspolymer

SEPIMAT™ SB, consisting of absorbent, soft microspheres is ideal for a soft and matte skin appearance. This versatile and easy-to-disperse powder is suitable for all types of formulations and is especially adapted for fluid or sprayable formulations due to its fine granulometry.

SEPICALM™ VG

Sodium Palmitoylproline and Nymphaea Alba Flower Extract

A successful marriage between palmitoylproline and water lily flower extract reaching a unique lightening and soothing effect: thanks to an action towards both a modulation of inflammation mediators and a reduction of genetic expression of tyrosinase (key enzyme of pigmentation), SEPICALM™ VG decreases cutaneous pigmentation induced by stress or aging process (in vitro and in vivo proven efficacy).

Other raw materials...

- Parfum/Fragrance : **Parfum Verte Vallée (TECHNICO FLOR)**
- Phenoxyethanol and Benzoic Acid and Dehydroacetic Acid and Ethylhexylglycerin : **Euxyl K701 (SCHULKE & MAYR)**
