With WESOURCE

Marine Green Liquid / Packaging: Tube

pH: 5.9

VISCOSITIES: 1M at RT: 24,400 mPa.s Brookfield LV4-6/**Recovery at RT (after 1M at 45°C):** 24,000 mPa.s Brookfield LV4-6.**STABILITY:** M1 at RT, 45°C.**FORMULATION ADVICES : Pilot - 5 kg - Trimix**

Put phase A under stirring (8 min) and add the already prepared phase B, stir the mixture for 20 minutes. When the gel is homogeneous, add one by one phase C ingredients, stir for 20 minutes. When the mixture is homogeneous, stop the stirring and check the pH, adjust it if necessary.

COLD
PROCESS

**In contact with the skin,
this cream gel is becoming really aqueous...
... like a wave of freshness overwhelming your body!**

This fluid cream gel is stabilized by **SEPINOV™ EMT 10**, supported by **SEPIMAX ZEN™** which reinforces the electrolyte tolerance.

SEPINOV™ EMT 10 brings a satin, fresh & gliding sensation during application. (Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer)

SEPIMAX ZEN™ (Polyacrylate Crosspolymer-6): stabilizes the cream gel & offers a **maximum resistance to electrolytes**, thanks to its high associative behavior.

EMOGREEN™ L15, an efficient alternative to silicone oils, brings lightness during application & leaves a soft powdery finish.

(C15-19 Alkane) (*Natural & Renewable)

Non-polar & biodegradable **emollient**. **High purity vegetal alkane**, it can be formulated in the most extreme conditions (pH, oxidizing/reducing medium...).

SCULPTOSANE™ provides firming & detoxifying properties.

(Aqua/Water - Butylene Glycol - Plankton Extract - Arginine Ferulate)

Fatty tissue 3D Remodelling active ingredient dedicated to fight adipocytes disorders (in vitro & in vivo studies).

This marin serum contains seaweed water **HYDRALIXIR™ LD**: an algae extraction co-product for a sustainable approach of water sourcing.

(Aqua/Water - Laminaria Digitata Extract)

Cellular water from *Laminaria digitata* (algae: organic farming / ethical & sustainable harvest): an **eco-designed by-product** (energy efficient process: gentle drying). A natural alternative to replace a part of the freshwater used in cosmetic formulations.

ADDITIONAL INGREDIENTS:

Phenoxyethanol, Ethylhexyl Glycerin: EUXYL PE9010 (SCHÜLKE & MAYR) / Phenylpropanol, Propanediol, Caprylyl Glycol, Tocopherol: SENSIVA PA 40 (SCHÜLKE & MAYR) / C.I. 42053: Colouring solution UNICERT YELLOW 08006-J at 1% (SENSIENT) / C.I. 15985: Colouring solution UNICERT YELLOW 08006-J at 1% (SENSIENT) / Caprylic/Capric Triglyceride: TRIGLYCÉRIDES 5545 (STEARNERIE DUBOIS) / Fragrance: AQUA SPIRULINA (TECHNIFLOR).
