EU07611 | REPAIR & SOOTH CICA CREAM

with TECA™ - *in vivo* tested on impaired skin

NATURALITY
PROFILE
according to
ISO 16128 norm

Dermocosmetic

Repair, soothe and heal the skin

Rich and smooth texture

A	Aqua/Water Glycerin SEPI NOV™ EMT 10	Up to 100% 3.00% 1.00%
B	MONTANOV™ 68 Caprylic/capric triglyceride Squalan	2.00% 9.00% 3.00%
C	TECA™ MONTANOX™ 80	0.20% 5.00%
D	Phenoxyethanol and ethylhexylglycerin Phenylpropanol and propanediol and caprylyl glycol and tocopherol	0.50% 0.50%

With WESOURCE

Fluid ivory emulsion / Challenge test: Criteria A / **Packaging: Pump**
pH: 5.8 / **VISCOITIES: 1M at RT:** 71 000 mPa.s Brookfield LV4-6 /
Recovery at RT (after 1M at 45°C): 70 000 mPa.s Brookfield LV4-6.
STABILITY: 1 year at RT, 3M at 45°C.

FORMULATION ADVICES / Laboratory - Rotor Stator - 300g
Mix and heat phase A at 85°C and form the aqueous gel. Heat phase C
at 85°C and put it into phase A. Heat phase B at 85°C and add it into
(A+C) and emulsify. Cool down the batch, then add phase D at 30°C.

Inspired by the ancestral use of *Centella Asiatica* in traditional asian medicine, this emulsion repairs and soothes delicate and impaired skin.

The healing effect of TECA™ has been proven by in vivo testing on impaired skin versus placebo

The in vivo study showed that with the formula containing **0.2% of TECA™ the inflammation of the dermis disappears 10 days before the placebo**, the dermis is thus repaired more quickly.

Test on 20 caucasian women (25-65 years old, phototype I to III), with stretch marks on the upper 2 thighs and having planned a laser intervention.

Placebo vs Formula with 0.2% of TECA™

Measurement of:

- repair and inflammation of the dermis by high-frequency ultrasound (50mHZ)
- density revealing epidermal inflammation by confocal microscopy (VIVASCOPE : until 150 micrometers)

SEPI NOV™ EMT 10 (Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer) is a multifunctional polymer having an **excellent tolerance**. It **thickens** the formula at low doses and provides a **satiny skin feel**.

MONTANOV™ 68 (Cetearyl Alcohol and Cetearyl Glucoside) gives a **rich, smooth and comfortable texture** to this cream. Promoter of liquid crystals, it also plays a role in **maintaining skin moisturization** over time.

TECA™ (Asiaticoside - Madecassic Acid - Asiatic Acid) is an emblematic blend of active ingredients extracted from *Centella Asiatica*. It **restores and soothes** the skin.

MONTANOX™ 80 (Polysorbate 80) **solubilizes** TECA™.

ADDITIONAL INGREDIENTS: Caprylic/capric triglyceride - TRIGLYCERIDES 5545 (STEARINERIE DUBOIS) / Squalan - PHYTOSQUALANE (SOPHIM) / Phenoxyethanol and ethylhexylglycerin - EUXYL PE9010 (SCHÜLKE AND MAYR) / Phenylpropanol and propanediol and caprylyl glycol and tocopherol - SENSIVA PA40 (SCHÜLKE AND MAYR).
